

Your Digital Assistant for on-site NDT
Report Generation

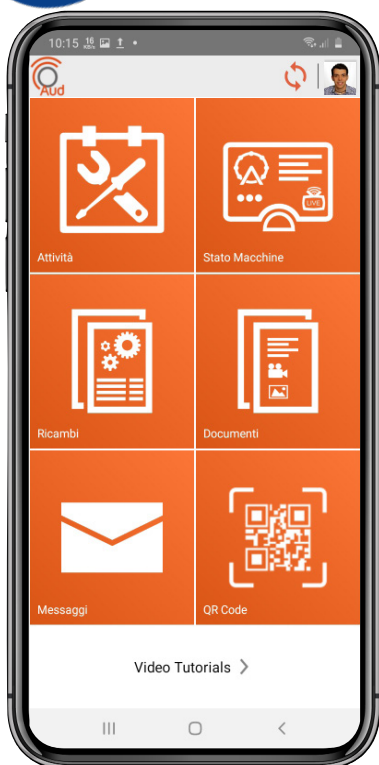

Take the power of
digital generation
of NDT reports
anywhere

"Since I've started using Opera NDT for my job, I've saved a lot of time
that used to be spent writing reports" *NDT technician*

Generate your NDT Reports and send them on your smartphone

Generate your own NDT report on the Web App

Enter our cutting-edge Web App on your pc and create your NDT digital reports in your original format. With Opera NDT you can generate them in the exact same format you are already using.

Schedule your NDT tests and send them on your smartphone

Once generated, you can schedule your NDT activities and send them to your smartphone. Our NDT App will receive all NDT tasks you created in the Web App.

Your Digital Assistant for on-site inspections Perform your NDT tests and enter the data on your smartphone, DONE!

Perform your scheduled NDT tasks using your smartphone

Enter the smartphone App and execute the tasks. Perform your NDT tests in your normal way and fill in all data and information needed, write notes and take pictures.

Synchronise your mobile phone and generate your NDT reports

Once you finish your tests, just synchronise your smartphone with the server. Enter the web app to print your NDT reports and it's DONE!
Now you can send them to your client or give him a guest access to your database so they can download their own documents, sparing you lots of time.
